

QUESTION OF THE WEEK 7

CHEMISTRY

Class – 11

1. Write the principle for manufacture of H_2SO_4 by contact process. Also draw the flow sheet diagram and write the conditions for higher yield of H_2SO_4 .
2. Write the reactions to show H_2SO_4 acts as (a) an oxidizing agent, (b) dehydrating agent, (c) an acid, and (d) precipitating agent.
